Decision taken

The PFCC has approved the awarding of contract for Tranman maintenance for a 1 year period. This covers both Police and Fire and is the garage service management system. Tranman is used within the workshops to manage vehicle maintenance and repairs, replacing manual job cards and later system input saving the force double entry time and widely accessible records for vehicles at different locations.

Details of advice taken

Professional operational, financial and legal advice has been sought to ensure the decision best supports frontline operational needs and represents value for money.
